

# ALU CLEAN

## CLEANERS & POLISH

### TECHNICAL INFORMATION GUIDE

**DEFINITION:** Aluminum Cleaner and Polish

**COMPOSITION:** Blend of nonionic surfactant, acids, emulsifiers, moisturizers, corrosion inhibitors, and water.

**FEATURES:** **Alu Clean** is an aluminum cleaner and polish that removes dirt and the effects of oxidation on aluminum surfaces.

**INSTRUCTIONS:** **Alu Clean** is a concentrate and should be diluted 1:20 for light duty cleaning, 1:10 for heavy dirt and oxidation. For best results mix in a spray bottle, apply to surface and allow to dwell from 3-5 minutes. Agitate using a soft bristle, nylon brush. Rinse with plenty of clean water.

**PACKAGING:** 3.5 liters (.925 gallon), 19 liters (5.01 gallons) & 200 liters (52.83 gallons).

**Due to the highly corrosive nature of this product it is recommended that this product only be used on aluminum and stored in plastic or polyethylene containers.**

### PROPERTIES

Physical State	Liquid
Color	Amber
Fragrance	Strong
PH	0±1
Solubility in Water	Soluble
Rinse	100%
Viscosity	Water
Density	1070±10g/20g/ml
Toxic Classification	Acute
Flammability	None
Protective Equipment	Neoprene Gloves, goggles and apron
Boiling Point	90
Ross Miles Foaming	Medium
Shelf Life	1 year
Chemical Reaction	Do not mix with Chlorine
Effects to packaging	None

**IS CORROSIVE TO METAL MATERIALS  
PROLONGED EXPOSURE WILL CAUSE DISCOLORATION**

# Biodegradable
