

MOP TREAT

FLOOR OILY TREATMENT

TECHNICAL INFORMATION GUIDE

DEFINITION: Oily formula to impregnate the dry mop.

COMPOSITION: Moisturizing oils, naphthenic solvents, dust catchers and fragrance.

FEATURES: **Mop Treat** oily formula is a pleasant scented formula to permeate the dry mop, which facilitates the mopping, removes dust and dirt quickly and easily. Liven up and polishing your floors. Significantly reduces the effect of trace and it becomes slippery if the mop is NOT completely dry. **Mop Treat** is colorless, to protect walls and baseboards.

INSTRUCTIONS: **Mop Treat** is enough to wet out the Mop (about 0,950 L of product for a mop of 500 gr.) for 24 hours. Let it dry outside (time varies depending on weather conditions) and when perfectly dry, is ready for use.

Mopping is recommended for polished concrete floors, tile floors, mud, flats and apartments generally deteriorated.

PACKAGING: 3.5 liters (.925 gallon), 19 liters (5.01 gallons) & 200 liters (52.83 gallons).

If applied on a wet floor it can result very slippery. Avoid transit of treated area until completely dry, to prevent falls and / or accidents.

PROPERTIES

Physical State	Liquid
Color	Clear to slightly Yellow
Fragrance	Cherry
Flammability	High
Solubility in Water	Not Soluble
Foaming	Not Required
Viscosity	No
Density	01.0±1.300g/ml
Toxic Classification	Low
Protective Equipment	Not Required
Boiling Point	100°C
Shelf Life	1 year
Chemical Reaction	Do not mix with Acids
Effects to packaging	None
Physical Separation	No
Stability	Stable

DO NOT EXPOSE TO CONSTANT DIRECT SUNLIGHT

Biodegradable
