

PROTECT ALL

CAR PROTECTOR & POLISH

TECHNICAL INFORMATION GUIDE

DEFINITION: BIODEGRADABLE Protector and Car Polish.

COMPOSITION: Water, Silicone Emulsion, Non-Ionic Surfactants, Antioxidants, UV Protector, Antistatic Agents and Conservatives.

FEATURES: **Protect All** is an effective and versatile guard and polish, which protects and beautifies all types of vinyl, plastic, rubber, leather and body work. Formulated with Ultra Violet blocker to prevent harmful exposure to sunlight that causes cracks, discoloration, hardening and loss of shine. It also contains an antistatic agent that prevents dust and dirt from sticking to treated surfaces. **Protect All** has been developed with the latest technology, producing a product that in addition to give the appearance of new look, protects without leaving a greasy feel. It contains emulsified silicone oils, which prevent damage caused by temperature changes on the common automotive plastic surfaces. **Protect All** is essential in the vehicle maintenance and washing at workshops, car dealerships, bus routes, fleets of trucks, trailers and wall tile in general.

INSTRUCTIONS: The surfaces to be treated need to be clean and dry. Apply directly to the desired surface or to a flannel or sponge and spread evenly. Allow product to penetrate for a few minutes and then drain off the excess. For best results is recommended to repeat the operation 2 times to surfaces treated for the first time.

PACKAGING: 3.5 liters (.925 gallon), 19 liters (5.01 gallons) & 200 liters (52.83 gallons).

PRECAUTIONS: The use of this product may cause surfaces to become slippery. Do not use on floors, wheels, pedals, motorcycle seats, controls or any other surface where slip can be dangerous. Do not apply on glass and textiles, it can cause stains on these surfaces.

Biodegradable
