

SHINE

TECHNOgreen
Caring For Our Environment

DESCALER & DISINFECTANT

TECHNICAL INFORMATION GUIDE

DEFINITION: A liquid cleaner that removes calcium and disinfects.

COMPOSITION: Nonionic surfactant, acid, emulsifiers, and surfactants.

FEATURES: **Shine** is an acid based cleaner that is designed to remove hard water (calcium deposits). It also disinfects and deodorize, inhibiting the growth of bacteria and eliminating odor causing microorganisms. This product is water soluble and is safe for use in septic systems.

INSTRUCTIONS: **Shine** is a ready to use product that should be applied directly to the surface to be cleaned. Let the product stand on the surface for a few minutes to allow the product to loosen deposits and begin to eliminate bacteria. For extreme instances allow product to dwell for longer periods of time. Use a brush or medium green fiber pad to remove deposits and rinse. Repeat application if necessary.

PACKAGING: 3.5 liters (.925 gallon), 19 liters (5.01 gallons) & 200 liters (52.83 gallons).

Use Shine to remove the hard water build up and unsightly water spots left on showers, drinking fountains, sinks and toilets.

PROPERTIES

Physical State	Liquid
Color	Green
Fragrance	Strong
PH	0±3
Solubility in Water	Soluble
Rinse	100%
Viscosity	Water
Density	01.0±1.300g/ml
Toxic Classification	Acute
Bacterial Inhibitory Effect	None
Protective Equipment	Rubber gloves
Boiling Point	78
Ross Miles Foaming	Low
Shelf Life	1 year
Chemical Reaction	Do not mix with Acid
Effects to packaging	None
Physical Separation	No
Stability	Clear with no separation between +2°C to 50°C

IS CORROSIVE TO METAL MATERIALS, PROLONGED EXPOSURE WILL CAUSE DISCOLORATION

Biodegradable
