

TECH-10

CLEANER-DEGREASER

TECHNICAL INFORMATION GUIDE

DEFINITION: General Purpose Biodegradable Liquid Degreaser

COMPOSITION: Water, anionic surfactant, solvents, degreasers, moisturizers, anti-corrosion agents and color.

FEATURES: A highly concentrated, biodegradable, liquid cleaner, very effective, versatile and economical. Used for industrial and commercial applications in more than 35 countries around the world. Nontoxic, noncorrosive, nonflammable and does not have to be rinsed with water. Does not contain any caustic agents. It will not burn or damage the skin and can be used on almost all surfaces (prolonged contact with the skin in heavy solutions may cause dryness of the skin, which is easily solved applying any type of moisturizing lotion to the skin). **Tech 10** quickly emulsifies oil, vegetable and animal grease. Additional uses may include stain removal.

DIRECTIONS: **Tech 10** is a concentrate and should be diluted in a 1:3 to 1:100 ratio, depending on the severity of the grease or stains to be cleaned. It can be used in most cleaning applications, as well as high pressure and heat.

PACKAGING: 3.5 liters (.925 gallon), 19 liters (5.01 gallons) & 200 liters (52.83 gallons).

USES:

Light Duty Solution

1 part **TECH10** per 100 parts of water. To clean glass, mirrors, chrome items and light dirt.

Standard Solution

1 part **TECH10** per 10 to 15 parts of water. Great for cleaning the majority of surfaces and items that can be cleaned with water. Ideal for cleaning upholstery and carpet stains.

Heavy Solution

1 part **TECH10** per 2 to 4 parts of water. To remove thick fats, wax from floors, difficult stains, clean kitchen vents, chimneys, stoves, engines and machinery.

Stains

Chocolate, wax-crayon, grease, lipstick, blood, Stainless steel furniture, acrylic, bath, kitchen, fiberglass, hospital, garden, appliances, lumber, office, plastic, etc.

If the surface to be clean is slightly warm the product will work better.

Biodegradable
