

TECH-40

GERMICIDAL & DISINFECTANT

TECHNICAL INFORMATION GUIDE

DEFINITION: Biodegradable clear liquid germicidal disinfectant in concentrate.

COMPOSITION: Quaternary ammonium, synthetic detergents and wetting agents.

FEATURES: A concentrated, biodegradable, liquid disinfectant. **Tech 40** is a hospital grade germicidal disinfectant designed to eliminate a wide range of bacteria. It has been tested for E.coli, Staphylococcus spp and more. Is also very effective in the presence of organic waste. Maintains effectiveness in high temperatures.

INSTRUCTIONS: **Tech 40** is a concentrate and should be diluted in a 1:20 ratio. Use in spray bottles. Spray on surface and let dwell for 30 seconds before removing. Requires no rinsing. Can be used in mop water.

PACKAGING: 3.5 liters (.925 gallon), 19 liters (5.01 gallons) & 200 liters (52.83 gallons).

Use Tech 40 on every surface to kill odor causing bacteria.

PROPERTIES

Physical State	Liquid
Color	Colorless
Fragrance	Odorless
PH	6±8
Solubility in Water	100%
Rinse	100%
Viscosity	Water
Density	1000±1040g/ml
Toxic Classification	Moderately Toxic
Phenol Coefficient	9
Protective Equipment	Not Required
Flash Point	N.A.
Ross Miles Foaming	Low
Shelf Life	1 year
Chemical Reaction	Do not mix with other Anionic products
Effects to packaging	None
Physical Separation	No
Stability	Clear, no separations, store in shade

Biodegradable
